375 CHECKWEIGHER

Checkweighing solutions for food processing and beyond.

Technical Specification

DESCRIPTION

Certified by NSF to NSF/ANSI Standard 3-A and with IP69K approval, the Avery Weigh-Tronix ZQ375 Checkweigher is a fast and easy solution for food environments and beyond.

Fully stainless steel construction with minimal food trap areas for ease of cleaning.

High and low capacity base designs automatically transfer shock loads and overloads away from the load cell.

From straightforward checkweighing to complete visibility of weighing data and statistics, the ZQ375 provides you with the information you need through Wireless, USB or Ethernet to maximise performance and profitability.

SPECIFICATIONS

| OPERATING APPLICATIONS | |
|-------------------------------------|---|
| Quick Check Application | \pm Target check mode with adjustable 6 segmented red under, orange over and large green accept bar. |
| Gross/Net Checkweighing Application | Gross/net checkweighing mode with adjustable segmented red under, orange over and green accept bar. Built in transaction counter. Pack run. Configurable standard deviation and Xbar R. |
| Advanced Checkweighing Application | 500 PLU storage, weight and percentage checkweighing settings with fully adjustable segmented red under, orange over and green accept, under over alarms. Full range of built in statistical packages, transaction counter, pack run, custom and standard deviation data capture, Xbar R, negative checkweighing and auto tare. |
| Grading Application | Up to 10 easy-to-set grading bands |
