

Sales Support Bulletin

ZM300 & ZM375 Barcodes Scanning

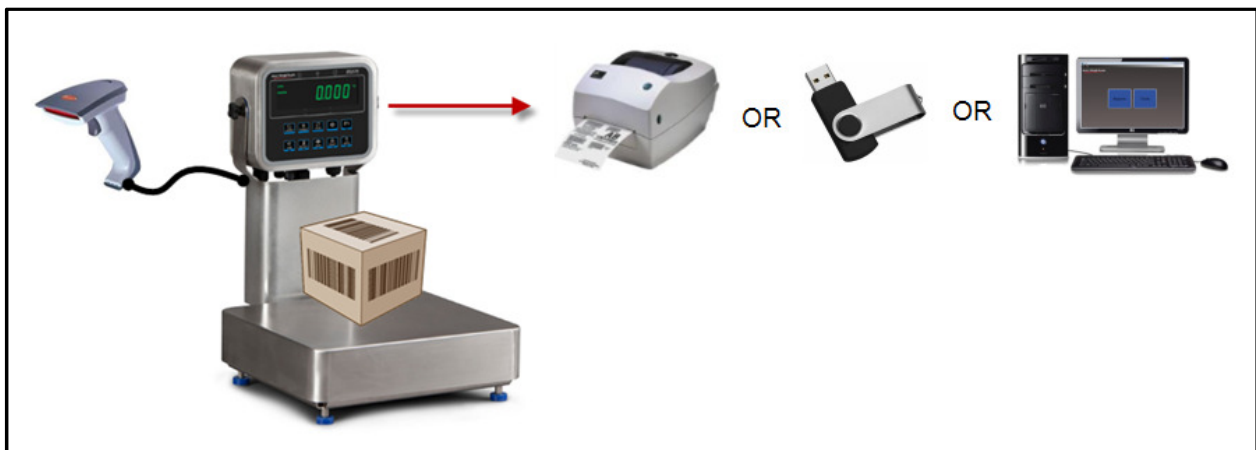

Bulletin ID: **I.E.S-001** *Issue:* **1**
Date Created: **July, 2018** *Last Updated:*
Systems: **ZM300 Series and ZQ375**

Did you know the ZM300 series and the ZQ375 has a built in application for the reading and scanning of barcodes?

The barcode data can then be printed or sent to a PC for data logging.

Applications:

Warehouse logging of incoming out outgoing products, or any application when the weight data is linked to a barcode.

Demo Setup:

Please see I.E.004 for technical setup.
