

ENVIRONMENTAL POLICY

The Environmental Management System (EMS) is applicable to all Head Office, Smethwick site activities covers the manufacture, supply and servicing of weighing equipment, offering a product portfolio to our business partners ranging from sensitive scientific balances, industrial weighing platforms and vehicle weigh-bridges

The organisations top management are committed to supporting all activities to enhance and protect the environment by targeting and continually reviewing and improving its environmental performance.

To minimise environmental impacts concerning our activities, products and services in line with the strategic direction and considering our context, we shall:-

- Comply with and periodically review applicable legal / regulatory requirements and other requirements that may be required by our business partners.
- Commit to reduce waste, improve recycling and minimise the consumption of resources within the technical limits of our environmental aspects.
- Educate, train and motivate employees to carry out tasks in an environmentally responsible manner.
- Commit to protect the environment and prevent pollution in partnership with our interested parties within the context of our business scope.
- Correct nonconformities in a timely manner

The Company is continually reviewing improvements to our environmental performance from initial design to product end of life processing.

This Policy is written to comply with ISO 14001 2015 and is communicated to all staff and made available to our business partners upon request.
