

## DESCRIPTION

### GENERAL

The ZM Kiosk Vehicle Scale Controls are based on the Z Series Indicators and provides a reliable solution for truck scale applications that require attended and unattended, driver-operated weighing. The system is available with many different hardware configurations to meet exact customer needs. It connects seamlessly to any Avery Weigh-Tronix truck scale as well as many other makes and models.

### STANDARD FEATURES

Each ZM Kiosk features a panel mounted Z Series Indicator and thermal printer with cutter/presenter and a large paper roll.

### OPTIONS

The system can easily be configured with an array of options such as RFID reader, intercom, traffic light controls, pole mount kit, etc.

*Shown with optional  
RFID reader and intercom*
