BENCH SCALE CART

Stainless steel Diamond bench scale cart for use within the food industry.

Technical Specification

DESCRIPTION

A tough, versatile Diamond base portable bench scale cart that is ideal for use within most HACCP or SQF type food processing environments. Made from a food grade 304, folded stainless steel with a fine brushed finish to enhance hygiene levels.

Designed for easy cleaning in accordance with NSF guidelines and USDA food processing requirements, to optimize food safety.

Easy to use and easy to move, this robust scale cart makes transporting heavy scale equipment to and from the cleaning area a safe and simple process.

Easily adjustable to fit most working height areas, the cart's front locking casters provide extra working stability when in full scale operation.

SPECIFICATIONS

GENERAL

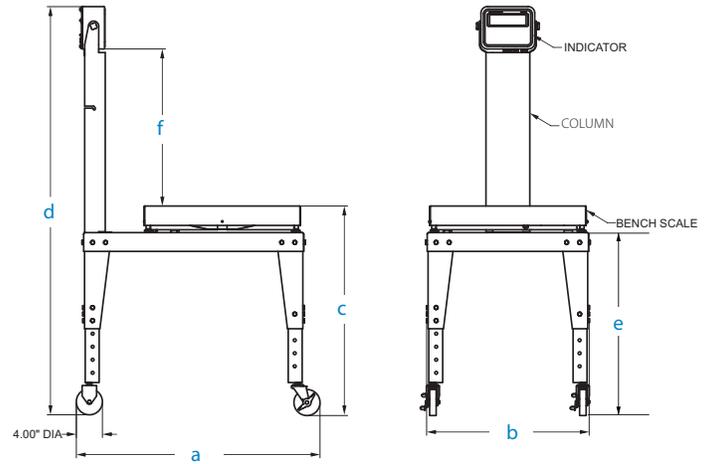

Designed for Use With The Following Platforms	Designed to support either the 20" x 20" (508 mm x 508 mm) or the 24" x 24" (610 mm x 610 mm) Diamond base. Base locates into specially designed feet guides that are positioned on top of cart frame to hold the base
Compatible Indicators	Fully compatible with ZQ375, ZM200, ZM300 and ZM400 series of indicators (stainless steel indicator versions only)
Column Heights	35" high (890 mm) fixed to the rear of the cart to give maximum rigidity, column also designed to hold a rechargeable battery as used on the ZQ375 to offer full portability
Cart Construction	Easy to clean full 304 grade stainless steel construction with heavy duty swivel zinc plated casters approved by the National Sanitation Foundation. Cart construction has been designed in accordance with NSF guidelines making it ideal for use with in HACCP or SQF type working environments
Adjustable Platform Heights	Fully adjustable cart legs can be set at a height between 20 - 30" (508 mm to 762 mm) to maximize operator comfort.
Movability	Designed to be portable while the scale is empty making it ideal for moving around a busy processing production floor. Fitted with two ridged and two fully swivelling heavy duty zinc plated casters , the front two casters are lockable to provide a safe working platform when in use
Strength and Reliability	Rugged construction design capable of working with loads up to 500 lb (250 kg) while also offering 150% overload protection
